Proposal for Antenna and Pedestal Assembly

1. This Office has an urgent operational requirement for a special paraboloidal antenna assembly including feeds and mounting pedestal. The attached proposal and accompanying cost breakdown from [redacted] covers the fabrication, test and delivery of this device in a 90 day period. It is notable that of three contractors contacted, [redacted] was the only one in a position to meet the required 90 day delivery schedule.

2. We have carefully reviewed this proposal and it is considered to be fair and reasonable. It is requested that contractual action be undertaken to accept this proposal under Contract RD-128, Task Order 6.

3. Attached is Requisition No. (913-18)4154-58 dated 4 March 1958 indicating that the allotment to be charged for this work is 8-3400-83-909. Funds in the amount of \$29,750.08 have been encumbered for this project. The association of the Agency with the contract and the equipment is classified SECRET. The actual equipment and engineering reports are UNCLASSIFIED. The project engineer for this task is [redacted]
